

# Oscar Mpetha

(Taped message to the UDF rally from Oscar Mpetha, who was unable to attend through illness.)

I welcome all the brave women and men who have come to attend the UDF launching in our province. I think that it is a great honour for us to host the first national UDF gathering here in the mother city.

I believe the way in which people from all over the country have responded to the UDF shows us the way ahead. The people themselves are now directing the opposition against the Nationalists. The people themselves have shown that the National Party has no majority at all. The time has come for the Nationalists to learn that they can no longer harass people and push them around.

I feel it is a great pity that I am unable to attend this historic occasion and address you all personally. I am with you though on this great day.
