

WE SALUTE

COMRADE

NELSON

MANDELA

On July 18 the entire membership of our liberation movement and our friends marked the 62nd birthday of Comrade Nelson Rolihlahla Mandela, an outstanding leader of our embattled people and first Commander-in-Chief of our revolutionary army, Umkhonto we Sizwe.

Comrade Mandela together with other leaders of our people, Comrades Govar Mbeki, Walter Sisulu, Ahmed Kathrada, Elias Motsoaledi, Raymond Mhlaba, Andrew Mlangeni and Wilton Mkwayi who are also in Robben Island as well as Comrade Dennis Goldberg who is in Pretoria Central Prison and many other patriots of our country who are imprisoned continue to hold the banner of our revolution high. Their heroism reminds us of those daring revolutionaries who carried out revolutionary work right inside the Nazi concentration camps, linking their activities with other revolutionaries outside prison, and whose relentless efforts were crowned with victory.

We in Umkhonto we Sizwe take the fine examples of determination, endurance and self-sacrifice set by Comrade Nelson Mandela as a challenge to ensure the liberation of our people whom he so much loves.

THE STRUGGLE CONTINUES! VICTORY IS CERTAIN!
