

# **SIGN UP FOR DEMOCRACY!**

## **Demand an Interim Government and Constituent Assembly**

Our people want to bury apartheid immediately.

The government wants to preserve white domination forever.

It tries to divide us. It imposes puppets on us. It throws us into bantustans.

Our people want a united, non-racial, democratic and peaceful South Africa.

**We want peace and democracy now!**

That is why the ANC entered into talks with the government. That is why we marched in the street in February 1 to protest against the racist parliament.

We need to take two more steps in our march to freedom: An interim gov-

ernment and a Constituent Assembly. The government does not want to take these two steps. We have to force it by showing our support for these demands.

Join the signature campaign for an Interim Government and Constituent Assembly. The signatures collected will demonstrate to the world what the people of South Africa want.

# **Apartheid cannot bury apartheid Demand an Interim Government!**

## **We say:**

Apartheid cannot bury itself. Only a body with the support of its people can bury apartheid.

The first step towards such a body will be the Interim Government. The Interim Government will ensure a fair and just transition. It will supervise the work of the Constituent Assembly.

Therefore it must be made up of the ANC, the Nationalist Party and other parties.

**Let the People decide!**

## **Demand a Constituent Assembly!**

We have the right to elect our representatives to a Constituent Assembly. The Constituent Assembly must write up the new constitution for our country.

This process will be democratic because every one will have a say in drawing up the Constitution. This will ensure that the new Constitution of South Africa is respected by the people. A Constitution that the people will defend.

## **Show your strength!**

It is not enough for ANC to talk with the government.  
We must actively show support for the demands made.
