

# MORTARS, ROCKETS AND ANTI-AIRCRAFT MISSILES

## PUBLIC AWARENESS CHART 10

Supplementary technical data and photographs available with this chart upon request.

This poster is the copyright of the promoters. Any infringement will result in prosecution.

**60 mm TYPE 31 MORTAR TUBE AND BASE PLATE (China)**

**60 mm CHINESE High Explosive Mortar Projectile**

**60 mm mortar tube hand held as is normally used by terrorist groups**

**82 mm MODEL 37 MORTAR TUBE AND BASEPLATE (Russia)**

**82 mm RUSSIAN High Explosive Mortar Projectile**

**MORTARS**

**RPG-2 (Russia)** Shoulder fired, unguided, short range portable Anti-tank Weapon (Impact initiated only)

**RPG-7V (Russia)** Shoulder fired unguided long range portable Anti-tank Weapon (Impact initiated or self destruct)

**PGO SIGHT & ACCESSORIES**  
Sight for RPG7 which has night sighting capabilities

**OG7V HEAP Projectile with propellant charge attached**

**PG 2 HEAT Projectable (top) with PG 7V Projectile and propellant charge (below)**

**ROCKET PROJECTILES**  
HEAP: High Explosive Antipersonnel  
HEAT: High Explosive Anti-tank

**Haversack for PG-7V Projectiles/propellant charge (Note bipod on launcher)**

**ANTI-TANK ROCKETS**

**RPG-7V in Action**  
(Courtesy Brasseys Weapon Systems)

**RPG = Reaktivnyy Protivotankovyy Granatomyët**

**SA-7 GRAIL (Strela)**  
Shoulder fired Infra Red Heat Seeking Anti-Aircraft Weapon

**ANTI-AIRCRAFT MISSILE**

**SA-7 IN ACTION**  
(Courtesy Brasseys Weapons)

**NOTE:** Missile is pre-loaded into launcher and transported as a single unit. After firing the launcher is discarded.

**RPG-7V Tail fin extended for flight stabilization — Fins are encased in a green propellant container which is screwed onto projectile immediately prior to firing. (The main rocket chamber and fin shown in box above is normally all that is found remaining at point of impact after rocket attack.)**

**Power source often found abandoned near launch site**

The Weapons shown above are some of the more common weapons carried within the terrorist sections for support in contact. They are effective and if used accurately are extremely potent. Depending on the size of the terrorist group they will have either a single anti-tank weapon or a single mortar, larger groups will carry both.

**WARNING: Possession of the above or any other unlicensed weapon is illegal. If any foreign weapon is seen or found, report them to your nearest police station immediately and inform your superiors.**
