

# Treat shingles with Acyclovir now!

Shingles (Herpes zoster) causes:

- painful blisters on a marked area on one side of the body.
- possible blindness if it occurs in the face.
- a scar that can burn badly.

*Herpes zoster*

**Does your clinic have Acyclovir?**

**All this can be prevented if shingles is treated quickly with Acyclovir!**

Most government clinics do not provide Acyclovir. Let's campaign for it!
